

Network & Web Design Services

DISCLAIMER FOR SERVICES

- *Network & Web Design Services is NOT responsible for malfunctioning computers, normal aging of computer & accessories, software & software updates from computer software/hardware companies that cause the computer not to operate properly, and malicious software infections that may cause the computer to be inoperable whether it is software or hardware.*
- *Network & Web Design Services is not responsible for wireless network breaches instituted by the client or by hackers and attackers.*
- *Network & Web Design Services is not responsible for network equipment malfunctioning.*
- *Network & Web Design Services is not responsible for changes made to the network by the client or other influences other than those made by Network & Web Design Services.*
- *Network & Web Design Services guarantees all work performed as long as the above conditions do not interfere with the computer's and/or network's ability to perform. Prior conditions/problems that the computer, accessories, & network are experiencing MUST BE made known prior to any service being performed. Lack of informing Network & Web Design Services of prior issues and problems before service is performed nullifies any possible attempts to hold Network & Web Design Services responsible.*
- *Network & Web Design Services does not guarantee web page rankings on Internet Search Engines like Google, Yahoo, Bing, etc.. It is the responsibility of the client to market their own website.*
- *Network & Web Design Services is responsible for the creation of the Website that is agreed to prior to the work being performed.*

Network & Web Design Services is responsible for the creation of Graphics Design work agreed to prior to the work being performed. Network & Web Design Services is not responsible for marketing of the Graphics Design products that it creates for the client. That is the responsibility of the client.
